

# ZOOM

## TECHNOLOGIES

### EDUCATION ACADEMY

Zoom Technologies, Cybersecurity experts for over two decades trains several hundred students every month across Hyderabad in India. We are an organization which has already trained over Two hundred thousand engineers.

## WHY ZOOM?

Zoom offers all that is crucial to become a thorough Cybersecurity professional. The courses offered are not just vendor-driven, but also technology-driven. So, even saying our labs are world-class or state-of-the-art would be an understatement.

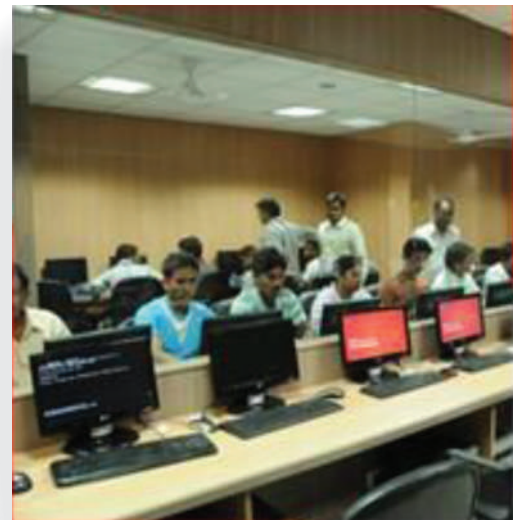

Training under industry experts: Most importantly the faculty who teach here are not mere academicians, but real industry experts who are involved in live projects. All this at an affordable price.

Zoom education academy has a reputation in providing quality Cybersecurity training and is the most preferred institution for students and professionals from such countries as Europe, Middle-East, Africa, Australia and a large part of Indians working in US who come to India to upgrade their skills.

## INFRASTRUCTURE

Only lab in Telangana and Andhra Pradesh with up to date infrastructure.

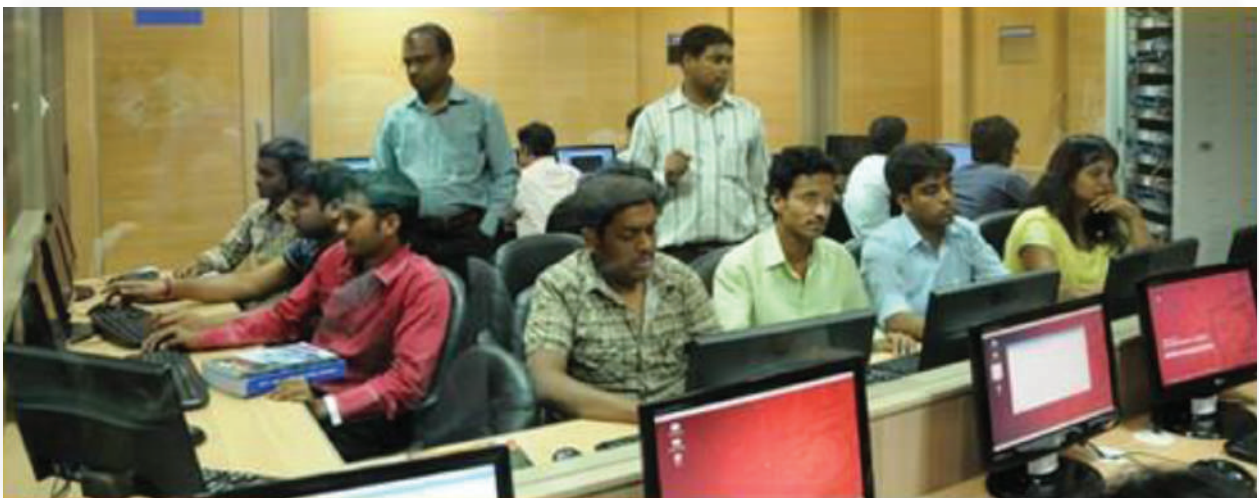

At Zoom technologies, students get full hands-on live exposure which are crucial during the learning process, give students the much-needed practical exposure.

## FROM THE HORSE' MOUTH

Our faculties are not mere academicians, rather true network professionals involved in real-time projects. Zoom technologies boasts of a team of over 250 highly qualified engineers working on live projects. These industry experts have trained several CIO's and CTO's world wide for over two decades now.
